

# Nutritional Self-Defense

by Lily Splane, M.N.

## TABLE OF CONTENTS

### FOREWORD

### SECTION I—REFERENCE TABLES

Reference Table  
Normal Lab Values for Blood and Urine (table)  
Breakdown of Constituents of the Human Body (table)  
Amino Acid Formulas (table)  
The Digestive System (illustration)  
Digestive Enzymes (table)  
The 10 Essential Amino Acids (table)  
The Saccharides (outline)

### SECTION II—MACRONUTRIENTS and ELECTROLYTES

CARBOHYDRATES (essay)  
    Carbohydrates Grouped by Percent (table)  
    Types of Sugars in Selected Foods (table)  
LIPIDS (essay)  
    Fatty Acids Formulas (table)  
    Molecular Configuration of Triglycerides (diagram)  
    Percentage of Saturated Fat in Selected Foods (table)  
    Fats Grouped by Percent (table)  
The Cholesterol Mystery Unraveled (essay)  
    What is Cholesterol's Role?  
    Factors Contributing to High Serum Cholesterol  
    What You Can Do to Lower Your Serum Cholesterol  
    Cholesterol in Selected Foods (table)  
Eicosanoids and Prostaglandin Production (essay)  
    Eicosanoids and the Immune Response (essay)  
    Eicosanoids and Heart Disease (essay)  
    Eicosanoids and Arthritis (essay)  
    Eicosanoids and Arthritis (essay)  
    Omega-3 Fatty Acids in Fish and Seafood (table)  
PROTEIN (essay)  
    Building Muscle (essay)  
    Proteins Grouped by Percent (table)  
    Vegetarian Diets (essay)  
        Table of Vegetable Protein Sources (table)  
Free-Form Amino Acids (essay)  
    Phenylalanine  
    D-Phenylalanine with Leucine  
    Tyrosine  
    Arginine  
    Ornithine  
    Lysine  
    Histidine  
    Cysteine  
    Glutamine

Glycine  
Taurine  
Tryptophan  
CALCIUM and RELATED ELECTROLYTES (essay)  
    Magnesium  
    Potassium  
    Sodium  
    Electrolytes in Selected Foods (table)  
    Electrolyte Ratios in Selected Foods (table)  
DIETARY FIBER (essay)  
    Dietary Fiber in Selected Foods (table)

### SECTION III—FOOD and DIET ANALYSIS

FOOD PROCESSING (essay)  
    The Four Food Groups Expanded (table)  
    Foods to Limit or Avoid for a Healthier Life (essay)  
    The FDA's GRAS Food Additives List (table)  
    Determination of RDAs (essay)  
        RDA vs. ODA (table)  
    Analysis of a Typical American Diet (table)  
    Critique of Traditional Ethnic Foods (essay)  
        Mexican  
        Chinese and Japanese  
        Italian  
        Jewish  
        German, Scandinavian  
        French  
        Irish  
        English  
        Greek  
        Mid-East (Arabian)  
        East Indian  
        North American, Regional  
    A Perfect Food? (table)  
    Sample Diet Menus (table)  
    Food Equivalencies (table)  
FOOD SENSITIVITIES (essay)  
    Natural Toxins in Foods (table)  
    Nitrates and Nitrites (table)  
    Phytic Acid in Foods (table)  
    Oxalic Acid in Foods (table)  
    Environmental Toxins in Foods (table)

### SECTION IV—SOLUTIONS

SPECIAL CONSIDERATIONS for the NUTRITIONALLY COMPROMISED (essay)  
    Invalids and the Bedridden  
    Athletes and the Very Active  
    Liver Dysfunction  
    Pregnancy

Gluten-Free Diet (table)  
High Acid Foods (table)  
Bland Diet (table)  
Other Special Diets (table)  
Purine (Uric Acid) Containing Foods (table)  
Foods High in Tyramine (table)  
Foods High in Salicylates (table)  
Conditions Aggravated by Nutritional Deficiency (table)  
Supplement Imbalances (table)  
Counteracting Toxins (table)  
Drug-Nutrient Interactions (table)  
Caffeine and Theobromine in Selected Foods and Drugs (table)  
Herbs (essay)  
WHOLE FOODS: YOUR BEST NUTRITIONAL DEFENSE (table)

## SECTION V—PHYSIOLOGY

BLOOD SUGAR (essay)  
Rudimentary Metabolic Physiology  
The Liver and Pancreas (illustration)  
Hormonal Control of Metabolism  
Normal Blood Glucose Levels (table)  
Hyperglycemia (Diabetes)  
Hypoglycemia (Low Blood Sugar)  
Glucose Tolerance Tests  
Blood Sugar Table  
Glycolysis (diagram)  
Glycemic Index (table)  
Food Exchange Lists (table)  
Diet Plans Using Exchange Lists (table)  
STRESS (essay)  
Nutritional Concerns  
Other Approaches  
Evaluate Your Stress Level (questionnaire)  
The Endocrine System (illustration)  
WEIGHT LOSS for a MODERN AGE (essay)  
The Physiology of Obesity  
Weight Loss Approaches  
Aerobic Training Table  
Determining Ideal Weight (table)  
Evaluation of Popular Reducing Diets (essay)  
Standard Low Calorie  
High Protein, Low Carbohydrate  
Water-Loading Diet  
Liquid Protein Diet  
Egg, Rice, Grapefruit, Popcorn Diets  
One-Food-A-Day Diet  
Herbal Powder Diets  
High Complex Carbohydrate, Very Low-Fat Diets  
Fruit-Loading Diet  
Injections  
Determining Frame Size (table)  
Caloric Allowances Chart (table)  
CALORIES EXPENDED DURING EXERCISE (tables)  
Walking  
Stepping

Bicycling  
Jogging  
Swimming  
Fat Allocation Chart (humor)  
ETHANOL (ALCOHOL) METABOLISM (essay)  
General Metabolism  
Ethanol and Blood Sugar  
Ethanol and Fat Metabolism  
Ethanol and the Neuron  
Ethanol and Brain Chemistry  
Nutritional Concerns  
Alcoholic Beverages (table)  
IMPROVING MENTAL PERFORMANCE through NUTRITION (essay)  
MENOPAUSE and NUTRITION (essay)  
The Menstruation Cycle  
Hormone Replacement Therapy (HRT)  
Nutritional Considerations  
QUESTIONS and ANSWERS  
Protein  
Food Supplements  
General  
Reference Table

## SECTION VI—FOOD COMPOSITION TABLES

Before Using the Tables.  
Composition of Selected Foods  
Dairy  
Meats  
Poultry  
Seafood  
Legumes  
Vegetables  
Grain Products  
Fruits  
Nuts and Seeds  
Processed Foods  
Condiments  
Beverages  
Nutrition Values of Selected Desserts  
Nutrition Value of Selected Dry Breakfast Cereals  
Nutrition Values of Fast Foods  
Vitamin Comparisons of Selected Fresh vs. Canned Foods  
Selected High-Sodium Foods  
Vitamin "A" in Selected Foods  
Vitamin "C" in Selected Foods  
Foods High in Vitamin "E"  
Iron in Selected Foods  
Other Nutrients in Selected Foods

## SECTION VII—VITAMIN and MINERAL FACT SHEETS

Periodic Table of the Elements  
Nutritional Chemistry  
Vitamin "A" Fact Sheet  
Vitamin "C" Fact Sheet  
Vitamin "D" Fact Sheet  
Vitamin "E" Fact Sheet  
Vitamin "K" Fact Sheet  
Bioflavinoid Fact Sheet

Vitamin "B1" Fact Sheet  
Vitamin "B2" Fact Sheet  
Vitamin "B3" Fact Sheet  
Vitamin "B5" Fact Sheet  
Vitamin "B6" Fact Sheet  
Vitamin "B12" Fact Sheet  
Choline Fact Sheet  
Inositol Fact Sheet  
Folic Acid Fact Sheet  
Biotin Fact Sheet  
Paba Fact Sheet  
Calcium Fact Sheet  
Magnesium Fact Sheet  
Potassium Fact Sheet  
Iron Fact Sheet  
Chromium Fact Sheet  
Iodine Fact Sheet  
Zinc Fact Sheet  
Manganese Fact Sheet  
Copper Fact Sheet  
Selenium Fact Sheet  
Amino Acids—Essential (diagrams)  
Amino Acids—Nonessential (diagrams)

## **SECTION VIII—YOUR NUTRITION ASSESSMENT WORKBOOK**

Health Assessment Questionnaire  
Food Journal  
Personal Dietary Record

## **SECTION IX—REFERENCES**
